

EXPORT_SYMBOL_GPL

mem_cgroup_get_from_id

cgroup_get_from_id

```
graph LR; A[EXPORT_SYMBOL_GPL] --> D[cgroup_get_from_id]; B[mem_cgroup_get_from_id] --> D;
```

The diagram illustrates a symbol export relationship. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'EXPORT_SYMBOL_GPL' and the bottom box contains 'mem_cgroup_get_from_id'. On the right, there is a gray rectangular box containing the text 'cgroup_get_from_id'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'EXPORT_SYMBOL_GPL' and 'mem_cgroup_get_from_id' are associated with or point to 'cgroup_get_from_id'.
