

obj_stock_flush_required

```
graph LR; A[obj_stock_flush_required] --> B[mem_cgroup_is_descendant]; A --> C[obj_cgroup_memcg];
```

A diagram showing a central node on the left, 'obj_stock_flush_required', which is a dark gray rectangle. Two blue arrows originate from its right side. The top arrow points to a white rectangle labeled 'mem_cgroup_is_descendant'. The bottom arrow points to a white rectangle labeled 'obj_cgroup_memcg'.

mem_cgroup_is_descendant
