

managed_zone

```
graph LR; A[managed_zone] --> B[zone_managed_pages]
```

A diagram showing a pointer relationship between two variables. On the left is a gray rectangular box containing the text 'managed_zone'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'zone_managed_pages'. Both boxes have a thin black border.

zone_managed_pages
