

slab_show

```
graph LR; A[slab_show] --> B[cache_show]
```

The diagram consists of two rectangular boxes connected by a horizontal blue arrow. The left box is white with a black border and contains the text 'slab_show'. The right box is gray with a black border and contains the text 'cache_show'. The blue arrow points from the right side of the 'slab_show' box to the left side of the 'cache_show' box.
