

get_info_end

```
graph LR; A[get_info_end] --> B[freeptr_outside_object]
```

A diagram showing a call from the function `get_info_end` to the function `freeptr_outside_object`. The `get_info_end` box is shaded gray, and the `freeptr_outside_object` box is white. A blue arrow points from the right side of the `get_info_end` box to the left side of the `freeptr_outside_object` box.
